

Time Warp 2007

Monday, 24 April 2006

This is a brand new dance mix with a slightly salsa/lambada/latino feel.

It's the original Richard O'Brien lead vocal but hugely remixed - even adding Tim Curry at the start.

And the result? A totally 2007 version of the great song.

Terrific reaction in the few clubs we've tested it out.

The new intro and the break in the middle work particularly well.

Enjoy it and let us know your feelings.
