

Leveson/Savile/Media

For me, the utterly appalling aspect of this media bias - illustrating that all they want is "a good story" - is the complete lack of positive opinions on Jimmy. There must be hundreds - no, thousands - who would say "not only was he fine with me, I thought he was wonderful". But the blinkered media only dare print the negative.

And give out the solid message that, if anyone dares say such a thing, they are liable to be smeared as perverts too.
