

Gemma Dowler's book on Milly

Friday, 30 June 2017

I shall write more after finishing it but tears are pouring down my cheek at every page. It is truly tragic and very well written. I urge you to buy it.

Her hatred of Surrey Police and their behaviour is frightening. Not so much the juniors, just "doing what they were told", but the ghastly senior officers.

It is almost a text book of how badly policed we are in Great Britain.

Coming on the same day as the Hillsborough prosecutions announcement, it is perfectly timed by Penguin.

Well done Gemma.
