

Whispers on EMI; Whispers on Warners; Whispers on Universal...

Thursday, 29 June 2006

We hear there is much unhappiness in all branches of both EMI and Warners about the atmosphere of discomfort caused by the imagined merger/takeover.

We also hear there is great dissatisfaction at Universal about the way TWO executives played the "I'm wanted at Sony/BMG" game to get bigger pay packets and better positions.

The buzz is "Lucian really fell for it hook line and sinker".
