The Cuckoo's Calling...

Thursday, 08 August 2013

JK Rowling's latest under the name Robert Galbraith is pretty good though I thought not as well written as The Casual Vacancy.
Still a first class detective story; clever hero and sidekick; well worth reading.
Interesting that the reviews (for an unknown) were much better than for JK's Vacancy. I suspect critics, like everyone else, are swayed by the media image. But then, of course, I'm a big JKR fan, having loved the Potter books since 1998.
